# Aguas de Ibiza

COOL SOPHISTICATION  
IN AN OASIS OF RELAXATION

The chic charms of one of the Mediterranean's hottest destinations have been enhanced with a new contemporary touch of Mediterranean wellbeing following the re-opening of the Revival Spa at Aguas de Ibiza hotel. Headed by Sara Folch's Barcelona studio, the team of interior designers have created an intimate and minimalist space that is both fresh and cosy, highlighted by the characteristic white and sandy colours of Ibiza. Extending over 1,500 square metres and comprising 11 spacious treatment rooms, Revival Spa offers oriental therapeutic massage, baths with salts from Ibiza, aromatherapy and exclusive facial and body treatments. Its fa-

ilities include a sauna, hammam, Turkish bath, cold pool, ice fountain, counter-current jet, relaxation and feng shui pools, relaxation area with colour therapy, outdoor relaxation area and tea bar.

Treatments available range from volcanic stone massages to revitalising seaweed and almond solutions – and other oriental rituals.

The centre is also home to an alkalising juice detox programme to help cleanse the body and mind; is the only centre in Spain to offer the Universal Contour Wrap, “which guarantees that you lose 15 centimetres in a single session”; and offers body sculptor, presotherapy and eurowave to address cellulite and tone and shift hard fat deposits.

Revival Spa has partnered with Clarins to create a Skin Spa, for facials, treatments for young skin, treatments specifically for men, body treat-

ments, body scrubs and massages, carried out exclusively with manual methods and products made of the finest plant extracts; and has an exclusive boutique with the whole range of Clarins products, as well as a modern hairdressing salon.
